Master's degrees

Master (M2) LLM International Aviation Law -ESL (2021-2022)

Capacity : 15 students max.

Length of studies 1 year - 2 semesters

Prerequisites for enrolment Bac + 4

Diplôme national

Accessible as Initial Training

Employee training

Specificities

The LL.M. includes 310 hours of teaching and seminars divided into 2 core modules and 4 specialized modules. All modules are mandatory to obtain the Master degree. Courses are offered in sessions of three to five days, approximately once a month. Participants also have either to complete an internship or to conduct a group-work project under academic or professional supervision. Standalone modules and courses are available on demand and subject to special arrangements.

Evaluation :

Core module 1 : a 3-hour written exam (practical case) - 15 credits

Core module 2: a 3-hour written exam (practical case) - 15 credits

Specialized modules : one oral examination encompassing all 4 modules + one in-class test per module - 16 credits

Internship or group project : written report and defense - 14 credits

Goals

Flying has become common but for most human beings it remains an incredible achievement! In spite of the Covid-19 global crisis, the aviation sector has a bright future. This crisis is a real game-changer, legitimately questioning both players and models, but it is definitely not the end of the long-lasting adventure of aviation. Air traffic is gradually resuming and private entities as well as public institutions are committed to tackling aviation's greatest challenge: flying with zero carbon emissions. Aside from environmental concerns, regional and international regulation authorities, airlines, airport operators, aircraft manufacturers, OEM, MRO and groundhandling firms have to face a growing number of complex challenges and to deal with more legal and regulatory issues such as safety, security, export control, embargoes, data protection, competition, unmanned systems... In this context, the demand for qualified legal expertise is increasing. The LL.M in International Aviation Law aims at offering strong expertise and appropriate solutions to aviation sector players. With more than 300 hours of face-to-face teaching, a set of comprehensive modules addressing the major current legal issues of this area, and many academic and industrial partnerships, this LL.M stands first and unique worldwide and is designed both for graduate students and for top executives in these domains.

For half a century, Toulouse, France, has been home to major international aeronautic players (Airbus, ATR...) and the most renowned centre for education and research in the aerospace sector (ISAE-Supaero / ENAC). The University of Toulouse Capitole and its well-known European School of Law offers cutting-edge programs, fully taught in English, and widely recognized in the business world.

The Master program brings together academic faculty from Toulouse Capitole University, international partner universities, engineering institutes, and industry-experienced speakers from major aviation related firms and institutions: Airbus, ATR, Thalès, Daher, ISAE-Supaero, law firms (Chevrier, Selene, JH, Hughes Hubbard Reed...) Goshawck, Flightright, ADP, Airfrance, Safran SEP... All taught courses, as well as assignments, exams, group-work are in English. Additional French as a Foreign Language classes may be organized on demand. Classes are organized to fit continuing education participants' schedules (one teaching week each month).

This one-year specialization (Master 2nd year) is the former university diploma LL.M. in international aviation law. It aims at giving students a solid expertise and delivers appropriate solutions to aviation sector players. With 310 hours of in-class teaching - a set of comprehensive modules addressing the major current issues in aviation law - and many academic and industrial partnerships, this Master is unique worldwide. It takes a strategic and interdisciplinary approach to the main legal challenges within this field and is designed both for graduate students and for top executives. The modules combine academic knowledge with professional expertise in order to meet the needs of major players worldwide.

What next?

Career Opportunities Career prospects : Students who obtain the LLM have several legal job opportunities, and especially those in relation with international aviation law. The programme provides them with the skills needed to hold positions in international law firms, private sector companies (e.g. airlines, aircraft and engine manufacturers, OEM, MRO), civil aviation authorities but also in public services, including international or European institutions.

Additional Information

Preparation to access the labour market workshops are set up and hold by the SUIO-IP:

- Making of professional project: highlighting ones experiences; identifying ones strengths; building ones project.
- Techniques for hunting a job: CV, applications letters, preparation to interviews.
- Student exchange: CV, Motivation letter and interview in English, application in Spanish.
- Making of Skills Portfolio (Portefeuille d'Expériences et de Compétences) through the online platform PEC.

Short lectures and job days about varied topics are set up all along the year: "How to hunt for an internship"; "The keys for successful first steps into a firm",...

The workshop, short lecture and event timetable is available at the SUIO-IP location, in the University's newsletter as well as on the University website (tab "Orientation et insertion" and in the news)
Enrolment is online.

The SUIO-IP is a place made for informing and advising you about programmes, international world, public service examinations, occupations into a firm, or the labour market.

Our documentary material is listed in our catalogue and available at the office or online:

<http://suio-ut-capitole.centredoc.fr>

A Master day (1st and 2nd years of master) is set up by the SUIO-IP every year, and takes place in the University Great Hall. All the masters are represented by the teachers and the current class students. The date will be known on the University website and on the notice boards.
