**DESCRIPTION**

This course is a re-shaped version of previous Master MINTEC, and is a 2 year program entirely taught in English.

**Semesters 1 and 2** aim at giving students a thorough knowledge of the private and public aspects of international and European legal issues.

The programme offers a comparative perspective, focuses on methodology with a view to providing the students with the tools needed to hold positions as lawyers in an international and European context.

**Semesters 3 and 4** aim at giving students a thorough knowledge of international economic legal issues. According to the French grading system, the master's degree is a national diploma recognised in the European Union countries and which is equivalent to a Legum Magister (LL.M.). The program focuses mainly on the study of the World Trade Organization, of the European Union in an economic perspective and of international economic development. The MIEL also aims at providing students with some basic knowledge of international law, contracts and markets regulations. Meetings are organised with professionals from international institutions. The two semesters are composed of mandatory courses.

During Semester 4, students will participate to the "ESL Legal Lab". Which is a practical experience developed in collaboration with ESL partners (Lawyer office, international corporations, local and national companies etc), adapted to provide the necessary skills to integrate the professional world. During this class, the students will be required to work in small groups on specific cases having an International, European and/or Comparative law dimension under specific supervision by both Professors and professionals, in order to propose effective and concrete solutions that can be utilized on daily practice by the ESL partners.

Still during semester 4, students will have the possibility to choose between a Dissertation or an Internship (2 months minimum).

**SKILLS AND TARGETED OCCUPATIONS****SKILLS:**

Occupational integration preparation, legal document drafting, plea and counselling simulations.

**For more informations, check RNCP (Répertoire National des Certifications Professionnelles) information sheet for « master mention droit international et droit européen »:** <https://www.francecompetences.fr/recherche/rncp/36113/>

**TARGETED OCCUPATIONS:**

Students who obtain the MIEL have several legal job opportunities, and especially those in relation with international economic law. The programme provides them with the skills needed to hold positions in law firms, companies but also in public services, including international or European institutions. Students opting for the Research Track can pursue academic research.

**ACCESS TO THE MASTER****Selection criteria:**

The admission committee will assess your application based on academic results, English proficiency, personal experiences (international and/or professional) and motivation.

**According to your country of residence, you may have to comply with additional procedures. Please get in touch with the Campus France office in your home country or check at:** <https://www.campusfrance.org>
