

THE ESL MONTHLY

Plenty of valedictorians

The month of October kicked off with the Toulouse Law School's Rentrée solennelle, a highlight of academic life.

This emblematic event was an opportunity to celebrate the success of our students, and to honor the valedictorians of our various courses, including those of the European School of Law.

Among them, Lukas Gollwitzer, a student in the Franco-German double degree program with the University of Passau, particularly distinguished himself by winning the prestigious title of valedictorian of all law school undergraduates.

This success illustrates the high standards and commitment of our students, as well as the international dimension that is the hallmark of the ESL and reflects on the École de droit.

To celebrate the 80th anniversary of the Italian Republic, Giovanna Montermini, professor and head of the Franco-Italian double degree program, has been orchestrating a film club since September.

The aim of this cycle? To explore the Republic through film. Beyond the screening of masterpieces, the aim is to understand how cinema has accompanied, criticized and highlighted Italian history from 1946 to the present day.

This initiative is particularly relevant to the ESL. By highlighting the democratic construction of a European Union country, this cycle underlines the importance of republican values, which are dear to the School.

This film club will continue until 2026. It's an invitation to students to reflect on the world around them through the eyes of great Italian filmmakers.

Our alumni conquer the legal profession

The European School of Law is extremely proud of the results of the Toulouse CRFPA 2025, which include many of its alumni. This collective success confirms a fundamental trend: international openness is a major asset for legal excellence. It is also a springboard to law school.

Congratulations to all the winners on their success
